Instructor 5 Years of Service

Issued by: Cisco

Issued to: Jim Pham

Issued on: 10 April 2019

Description: The 5 years of service badge is awarded to an instructor for active participation in Cisco Networking Academy over a period of 5 years. The badge acknowledges the instructor's growing dedication to the program and increased impact on the lives of students and the communities in which they live.

Introduction to Modern AI

Issued by: Cisco

Issued to: Jim Pham

Issued on: 29 August 2025

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Modern AI course. The learner will have practiced using AI enabled features on free apps, such as photo apps, translation services, and chatbots. They will have had in depth practice in prompting a chatbot, and understand fundamentals of how the models work, which informs how they prompt chatbots.

Engaging Stakeholders for Success

Issued by: Cisco

Issued to: Jim Pham

Issued on: 31 August 2025

Description: Cisco verifies the earner of this badge successfully completed the Engaging Stakeholders for Success course and achieved the student level credential. Earner has knowledge of the value of identifying stakeholders and their needs, common pitfalls when working with stakeholders, and appropriate techniques for engaging stakeholders. Completed up to 24 scenario-based interactions and one immersive branching scenario.

[Introduction to Data Science](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 1 September 2025

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Data Science course. The holder of this student-level credential has a broad understanding in basic concepts of Data Analytics, Data Engineering, Data Science and AI/ML related job functions. They also have insight into opportunities available for pursuing career in various data roles.

[Apply AI: Analyze Customer Reviews](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 2 September 2025

Description: Cisco verifies the earner of this badge successfully completed the Apply AI: Analyze Customer Reviews Course. The learner has applied thematic analysis to analyze tables of text data with assistance of AI and spreadsheet apps. The learner has practiced choosing the right AI or non-AI tool for each task.

[Python Essentials 1](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 3 September 2025

Description: Cisco, in collaboration with OpenEDG Python Institute, verifies the earner of this badge successfully completed the Python Essentials 1 course and achieved the student level credentials. Earners have knowledge of the concepts of computer programming, the syntax and semantics of the Python language as well as demonstrate the ability to accomplish coding tasks related to the essentials of programming in the Python language and resolve implementation challenges using the Python Standard Library.

[Data Analytics Essentials](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 5 September 2025

Description: Cisco verifies the earner of this badge successfully completed the Data Analytics Essentials course. The holder of this student-level credential has a broad understanding how the data analytics process creates value from data, can explain characteristics of data, including formats, availability and methods to acquire, can transform data and analyze data using basic statistical and data preparation techniques. The holder has completed hands-on activities using Excel, SQL, Tableau and other tools.

[Introduction to Cybersecurity](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 8 September 2025

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Cybersecurity course. The holder of this student-level credential has introductory knowledge of cybersecurity, including the global implications of cyber threats on industries, and why cybersecurity is a growing profession. They understand vulnerabilities and threat detection and defense. They also have insight into opportunities available with pursuing cybersecurity certifications.

[Data Science Essentials With Python](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 10 September 2025

Description: Cisco verifies the earner of this badge successfully completed the Data Science Essentials with Python course, demonstrating the ability to use Python and industry-standard libraries to explore, visualize, and model data. Earner applied analytical thinking and communicated insights through guided projects.

[Creating Compelling Reports](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 15 September 2025

Description: Cisco verifies the earner of this badge successfully completed the Creating Compelling Reports course and achieved this student level credential. Earner has knowledge of why reports are valuable in business contexts, and how to select appropriate tone, key points of relevance and organizational structure to communicate a specific message to a particular audience. Completed up to 24 scenario-based interactions and one immersive branching scenario.

[JavaScript Essentials 1](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 18 September 2025

Description: Cisco, in collaboration with OpenEDG JS Institute, verifies the earner of this badge successfully completed the JavaScript Essentials 1 course and achieved the student level credentials. Earners know the syntax of the core JavaScript; can work with variables, operators, flow control, and functions; know the basics of data types system; think algorithmically and can analyze problems using a programmatic conceptual apparatus; and can design, develop, and improve simple JavaScript programs.

[Cyber Threat Management](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 20 September 2025

Description: Cisco verifies the earner of this badge successfully completed the Cyber Threat Management course. The holder of this student-level credential is familiar with cybersecurity policies and governance to ensure an organization complies with ethics standards and legal and regulatory frameworks. They understand how to do a network vulnerability assessment and create a risk management plan, as well as post-incident response.

[Python Essentials 2](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 1 October 2025

Description: Cisco, in collaboration with OpenEDG Python Institute, verifies the earner of this badge successfully completed the Python Essentials 2 course and achieved the student level credentials. Earners have knowledge and skills in intermediate aspects of Python programming, including modules, packages, exceptions, file processing, as well as general coding techniques and object-oriented programming (OOP), and prepares the learner for the PCAP – Certified Associate in Python Programming certification.

[Ethical Hacker](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 24 November 2025

Description: Cisco verifies the earner of this badge successfully completed the Ethical Hacker course. The holder of this student level credential has a broad understanding of the legal and compliance requirements and is proficient in the art of scoping, executing, reporting vulnerability assessments, and recommending mitigation strategies. The holder has completed up to 34 hands-on activities using Kali Linux, WebSploit, and other tools.

[JavaScript Essentials 2](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 10 December 2025

Description: Cisco, in collaboration with OpenEDG JS Institute, verifies the earner of this badge successfully completed the JavaScript Essentials 2 course and achieved the student level credentials. Earner should know coding techniques while introducing both class-based and classless approaches in object-oriented programming, be familiar with a curated range of built-in objects that extend programming capabilities, manage complex data structures, such as Map and Set, and asynchronous programming.

[Network Defense](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 16 January 2026

Description: Cisco verifies the earner of this badge successfully completed the Network Defense course. The holder of this student-level credential has a broad understanding of techniques to monitor and protect the network, including access control, firewalls, cloud security, and cryptography. They are also familiar with how to evaluate and respond to security alerts.

[CSS Essentials](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 27 January 2026

Description: Cisco, in collaboration with JS Institute, verifies that the earner of this badge has successfully completed the CSS Essentials course and achieved student-level credentials. The course covered CSS3 fundamentals, including styling web pages, applying layout techniques, implementing responsive design, and ensuring accessibility and usability. Upon completion, the learner is ready to attempt the WDA™ – Certified Associate Web Developer certification exam, provided by JS Institute.

[HTML Essentials](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 29 January 2026

Description: Cisco, in collaboration with JS Institute, verifies that the earner of this badge has successfully completed the HTML Essentials course and achieved student-level credentials. The course covered HTML5 fundamentals, including document structure, text formatting, hyperlinks, multimedia integration, forms, and accessibility best practices. Upon completion, the learner is ready to attempt the WDE™ – Certified Entry-Level Web Developer certification exam, provided by JS Institute.

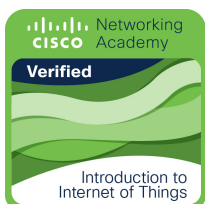

[C++ Essentials 2](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 31 January 2026

Description: Cisco, in collaboration with OpenEDG C++ Institute, verifies the earner of this badge successfully completed the C++ Essentials 2 course and achieved the student level credentials. Earners should know the syntax and semantics of the C++ language, the basic data types offered by the language, the principles of the object-oriented model and its implementation in the C++ language, and the means useful in resolving typical implementation problems with the help of standard C++ language libraries.

[Introduction to IoT](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 7 February 2026

Description: Cisco verifies the earner of this badge successfully completed the Introduction to Internet of Things course. The holder of this student-level credential has introductory knowledge of IoT and has an understanding how it enables the Digital Transformation along with emerging technologies such as data analytics, AI/ML and the increased attention on cybersecurity. They understand the importance of Intent Based Networking to be able to connect and secure tens of billions of new devices with ease.

[Industrial IoT and Control Systems in Energy](#)

Issued by: [Cisco](#)

Issued to: Jim Pham

Issued on: 10 February 2026

Description: Cisco verifies the earner of this badge successfully completed the Industrial IoT and Control Systems in Energy course. The earner has developed a foundational understanding of Industrial Automation and Control Systems (IACS) and Smart Grid technologies. This includes knowledge of process automation, SCADA, compliance, and solutions for high availability and time synchronization. The earner participated in up to 1 lab and 14 Cisco Packet Tracer activities, simulating real-world scenarios.

[Apply AI: Update Your Resume](#)

Issued by: Cisco

Issued to: Jim Pham

Issued on: 18 April 2026

Description: Cisco verifies the earner of this badge successfully completed the Apply AI: Update Your Resume course. The learner has practiced using AI tools to extract, tailor, and format resume content while protecting sensitive information. They have applied privacy-first workflows, validated AI outputs through systematic review, and produced professional, ATS-friendly resumes customized to specific job postings.

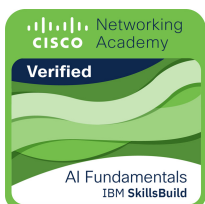

[Managing a Business Venture](#)

Issued by: Cisco

Issued to: Jim Pham

Issued on: 19 May 2026

Description: Cisco verifies the earner of this badge successfully completed the Managing a Business Venture course and achieved this student level credential. Earner has knowledge of strategic business management and operational planning skills including finance, accounting, building a team, business structures and managing risk.

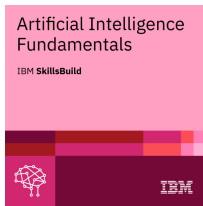

[AI Fundamentals with IBM SkillsBuild](#)

Issued by: Cisco

Issued to: Jim Pham

Issued on: 16 June 2026

Description: Cisco, in collaboration with IBM SkillsBuild, verifies the earner of this badge successfully completed the AI Fundamentals with IBM SkillsBuild course and achieved the student level credentials. The credential earner demonstrates knowledge of basic artificial intelligence (AI) concepts, such as natural language processing, computer vision, deep learning, etc. Earner has also been exposed to the ethics of AI and is aware of the skills required for success in various roles in the domain.

Artificial Intelligence Fundamentals

Issued by: IBM SkillsBuild

Issued to: Jim Pham

Issued on: 16 June 2026

Description: This credential earner demonstrates knowledge of artificial intelligence (AI) concepts, such as natural language processing, computer vision, machine learning, deep learning, chatbots, and neural networks; AI ethics; and the applications of AI. The individual has a conceptual understanding of how to run an AI model using IBM Watson Studio. The earner is aware of the job outlook in fields that use AI and is familiar with the skills required for success in various roles in the domain.
